Some 2,000 persons swarmed the Coliseum last night for the Hempstead Wildlife Association's first big fish fry.

The Association anticipated about 1,200 persons, based on membership. But so many turned up that the fish gave out long before the line. Everyone was invited and only a membership in the organization was needed for admission. Needless to say membership was sold last night.

Dub Flowers, President of the Association, welcomed the large crowd and presented the board members. George Frazier, Mayor, acted as master of ceremonies and introduced members of the Arkansas Game and Fish Commission.

Making short talks were T. H. Holder, Federal Aid Coordinator; Dr. Joe Shuffield, G&F Commissioner; Ted Woods, director of Parks and Publicity for the State. The entertainment started with a fly casting demonstration by George Hazakas, Hot Springs, game warden for Garland County.

Jack Witt, formerly of Hope, represented the Ben Pearson Co. of Pine Bluff and gave a bow and arrow demonstration.

Jack Ray, of Ram Wood Products, gave duck and goose calls that won him the world's title as champion goose caller. He also gave a very fine demonstration on shotgun safety.

## Man Killed by Frisco Train

FORT SMITH, Ark. (AP)—Orville L. Hutchinson, 42, of Van Buren was run over and killed by a Frisco freight train yesterday on a half-mile-long railway bridge connecting Fort Smith and Van Buren.

Sheriff Prentice R. Maddox quoted the engineer of the train, Emmert Vinson, as saying Hutchinson was lying on the track and seemed to be trying to get up as the train bore down on him.

Three engines and nine cars passed over Hutchinson's body.

## Huge Crowd Turns Out for Fish Fry Here

## Washington Gets Ready for Visitors

Many improvements are being made at Washington, Arkansas, in anticipation of the 4th of July celebration to be held there.

The site of the old Tavern, where Sam Houston planned the Texas revolution against Mexico, is being made into a public park. The land already belongs to the town, and the site has been cleaned and tables, benches, and other tourist accommodations are being installed.

Restoration of the Tavern building itself, which once stood at the intersection of the main pioneer trails north and south, east and west, on Washington's principal corner is one of the foremost projects of the Washington Restoration Foundation, which was recently incorporated to undertake the restoration of this and other historic landmarks in the area.

The 4th of July "open house" is being planned by the Washington Community Accomplishment Club, which was also recently organized.

## AIC to Consider College Dispute

LITTLE ROCK (AP)—The Arkansas Legislative Council met here today to consider several controversial matters including a reported friction at Arkansas A&M College and the disputed Medical Center patient quota law.

State Sen. Jack Shelton of Monticello had asked the council to look into a dispute over a reported plan to oust Horace P. Thompson as president of the Monticello school.

## U.S. Okays a Big Loan to Philippines

WASHINGTON (AP)—The United States agreed today to establish a new 75-million-dollar line of credit for the Philippines and provide 50 million dollars in development loan funds. The development loans are subject to congressional action.

The agreement was announced in a joint Philippines-U.S. statement issued by the White House at the conclusion of a three-day state visit by Philippine President Carlos P. Garcia.

The statement said Garcia and President Eisenhower reviewed economic development in the Philippines over the past years and examined the current economic problems which face that nation. Garcia has been seeking a reported 350 million dollars in long-term credits.

The statement said: "In view of the inability of the United States to anticipate accurate financial availability and relative requirements beyond the next 12 months, immediate emphasis was placed on meeting the initial requirements of the Philippine program."

For these initial requirements the Export-Import Bank informed the Philippine government that it will establish a new line of credit of 75 million dollars for financing private and public development projects in the Philippines.

## Horse-beating Leads to a Fatal Shooting

PINE BLUFF, Ark. (AP)—A horse-beating incident at a Tucker State Prison Farm yesterday led to the fatal shooting of a trusty as the man pleaded for his life. Deputy Sheriff Buck Oliver reported.

Oliver said another trusty had been arrested in connection with the slaying.

The deputy gave this account of the shooting: "James Leroy Montgomery, 25, of Clarendon, the shooting victim, had attempted to stop Frank Williams, 26, of Muskogee, Okla., from whipping a horse during a non rest period at the farm."

Nails, armed with a rifle, fired three shots at Montgomery and the latter fled unharmed.

A short time later Montgomery emerged from a culvert with his hands raised and begged Nails not to shoot.

Oliver said Nails, who admitted the slaying to officers, fired four times. Montgomery was struck by four bullets and killed, the deputy said.

The officer quoted Nails as saying he was fearful that Montgomery would tell the warden about the horse beating.

## Negroes Riot Over Arrest in St. Louis

ST. LOUIS (AP)—Rioting Negroes chanting "Little Little Rock" battled St. Louis County police early today after an officer arrested a 17-year-old youth on a traffic charge.

About 35 Negroes from the village of Meacham Park near suburban Kirkwood were involved in the hour-long riot, police said. Seven were arrested after four patrol cars were called.

Bricks and stones were hurled at the car of patrolman Richard Seger, 25, who had stopped Lee W. Lawrence, 17, on a careless driving charge.

Seger said he ordered Lawrence out of the car for a search and the boy came out fighting.

Other men came out of nearby houses and taverns as Seger sought to subdue Lawrence and his 17-year-old companion, Alfred E. Jackson.

"It seemed there were a 1,000," Seger said, "but I guess there weren't more than 35 or 40."

Seger said he hauled his way back to his patrol car and rushed for help. Then a brick crashed through the window of the patrol car and struck Seger in the arm. The group chanted "Little Little Rock."

Four patrol cars quickly arrived.

Lawrence, Jackson, and five others were taken to headquarters and booked on charges of assaulting an officer, inciting a riot and resisting arrest.

The others arrested were William Hayden, 31, Sylvester Johnson, 25, Joseph M. Brown, 33, Joseph Rodgers, 19, and R. H. Johnson, 21.

Seger was treated for cuts and bruises.

## Transportation Tax Only One Senate Cuts

WASHINGTON (AP)—The Senate today passed a bill to erase present transportation taxes but continued for another year other major excise levies and the 52 per cent corporate tax rate.

The measure, passed by the House June 5, now goes back there because of the Senate's unexpected adoption of amendments to repeal the 3 per cent freight tax and the 10 per cent tax on passenger fares.

Except for these two amendments, the Senate backed up the Eisenhower administration and Republican and Democratic congressional leaders in resisting any anti-recession tax cuts at this time.

By preventing a reduction in excises on liquor, beer, wines, cigarettes, autos and auto parts and a drop in the corporate tax rate to 47 per cent on July 1, the bill would save the government from a loss of an estimated \$2,000,000,000 in revenue.

The transportation tax repeal voted by the Senate would cost the government somewhat in excess of \$700 million annually, however.

Before passage by a voice vote, the Senate rejected a move to cut the federal excise tax on automobiles.

The 4432 roll call vote knocked down an amendment by Sen. Charles E. Potter (R-Mich.) to reduce the levy from 10 per cent to 5 per cent, and the tax on auto parts from 8 per cent to 5 per cent.

The decision came on the heels of Thursday night's surprise Senate vote, in the face of administration opposition, to wipe out excise taxes on passenger tickets and freight.

## Dulles Warns -- Don't Take Russia Lightly

WASHINGTON (AP)—Secretary of State Dulles told Congress today it would be reckless to take lightly the Soviet Union's threat of economic warfare against the United States.

"The strategy of Communist imperialism," he said, "involves the subversion of country after country until the United States is isolated and subject to economic strangulation."

Dulles was before the Senate Finance Committee, urging a five-year extension of the Trade Agreements Act, which expires this month.

The law authorizes the President to negotiate tariff reductions in order to stimulate trade. Dulles said the trade agreements program, together with the U.S. foreign aid, constitute the basis answer to Soviet Premier Khrushchev's economic warfare challenge.

The House has passed the trade agreements extension bill. The tariff cutting program was instituted 24 years ago and has been renewed 10 times by congressional action.

## Lebanon Truce Is Shattered Despite UN Truce Team

### Government of Lebanon at Odds With UN Group

BEIRUT, Lebanon (AP)—Fighting broke out in front of the British Embassy today, shattering a truce that had prevailed since U. N. Secretary General Dag Hammarskjold arrived in Beirut.

One man was shot while standing on the ground floor of a building under construction opposite the embassy. He reportedly died later. Another man who seemed to be going to the rescue was wounded.

Armed men wearing the red arm bands of the pro-Christian Falange party immediately rushed up and cordoned off the area until the wounded man was taken away in an ambulance.

The outburst ended quickly. But in the Turk Jadda area of Beirut a street battle broke out and armored cars moved in to restore order. There were no immediate casualty reports. There also was some shooting in the Mozaitbeh Christian section and the Zarif Moslem area.

Hammarskjold, meanwhile, was reported at odds with the Lebanese government over the role the U. N. observer team should play in the Lebanese rebellion.

Sources close to the U. N. secretary general, says Hammarskjold thinks the United Nations job at the moment is principally one of observation.

The government, however, is insisting that the U. N. team police the border to prevent infiltration by hostile forces.

Beirut was relatively quiet but there was some fighting in the Mozaitbeh area, the Christian section adjacent to the Basta Moslem area where the opposition leadership is entrenched.

Desultory firing was also heard in the Zarif Moslem area in the center of town. But generally both sides seemed to be adhering to a tacit understanding that there be no major attacks during Hammarskjold's efforts here.

Rebels remained alert at their roadblocks and strongpoints in Beirut and throughout the country.

The secretary general met with Sami Solh, Lebanese Premier, and one of the targets of the rebellion.

## Bob Crosby's Son Jailed in Los Angeles

LOS ANGELES (AP)—Orchestra leader Bob Crosby's son Christopher, 15, and a companion were arrested early today. Police said they had pushed a sports car out of a Bel-Air driveway.

Young Crosby and Jeffrey Davidson, 18, were booked at the West Los Angeles police station on suspicion of "temporarily depriving the owner of a vehicle (joyriding)."

"Christopher said he didn't know why they did it, that it was a crazy idea and they just wanted to try it out," Officer W. B. Maxwell reported.

## High School Boy Shot to Death

HOT SPRINGS, Ark. (AP)—A 16-year-old high school boy was found dead last night in the front seat of his family's car at their farm home about 21 miles west of here.

Dr. D. C. Lee, Garland County coroner, was investigating.

Sheriff Leonard Ellis said the body of Charles Westbrook, the only son of Mr. and Mrs. H. Y. Westbrook, was found about 9:30 p.m. by his parents as they prepared to go fishing. The sheriff said one end of a plastic garden hose had been attached to the exhaust pipe of the car and the other end thrust through a front window.

The motor was still idling when the parents made the discovery, Ellis said.

Young Westbrook had attended Hot Springs High School here and was described as an excellent student.

## U.S. Workers Get 10 Per Cent Pay Hike

WASHINGTON (AP)—A million government white collar workers got a 10 per cent pay raise today retroactive to last January. It means they have 250 million dollars of back pay coming.

President Eisenhower signed the measure granting the increase. It will add \$12 million dollars to the annual U.S. government pay roll.

Government agencies plan to start distributing the back pay next month.

The increase, coming after a two-year fight, matches a 10 per cent raise also retroactive to last January, already given 530,000 postal workers.

The administration had suggested a 6 per cent increase.

The white collar raise goes to an estimated 1,021,072 employees, including 978,932 paid under the classified Civil Service system; 6,209 in the legislative branch; 4,119 in the judicial branch; 19,485 doctors, dentists and nurses in the Veterans Administration; and 12,636 in the foreign service.

The average annual increase for individuals is \$531. The retroactive pay will average \$250.

The measure adds 800 top-grade jobs to the federal career service, about 300 in the science and engineering field.

## Final Action on Foreign Aid Nearing

WASHINGTON (AP) — A compromise \$3,675,400,000 foreign aid program is ready for final congressional action.

Chairman Thomas E. Morgan (D-Ia) of the House Foreign Affairs Committee said today he will call up the authorization bill for a vote early next week. Passage there, and by the Senate later, would clear the way for action on a separate money bill to finance the spending for which the authorization bill sets terms and ceilings.

The program recommended Wednesday by Senate and House conferees is 260½ million dollars below President Eisenhower's request for military and economic help to friendly nations in the fiscal year starting still in House conference.

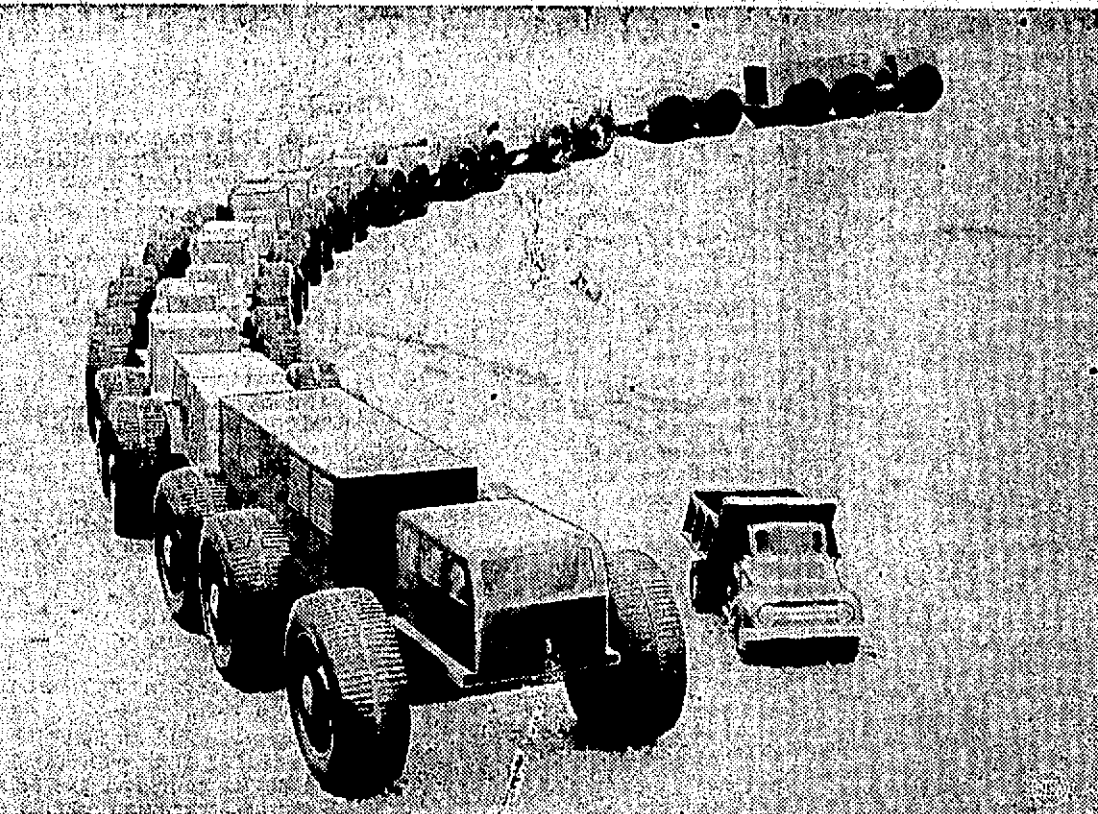

Before finishing work on the authorization measure, the conferees dropped a Senate amendment aimed at halting use of nonmilitary aid funds for purchase abroad of Japanese textiles and other commodities in competition with American business.

The bill provides \$1,605,000,000 for military assistance (planes and other hardware) to allies, for which Eisenhower sought \$1,800,000,000.

It also carries \$10 million dollars of the \$85 millions the President asked for defense supports. This is economic aid for allied countries to enable them to support adequate military forces.

Large toy dump truck to right gives some idea of how big the full-sized version would be.

**THE STORY:** Tom Rosser, a former Kansas marshal, has made an enemy of Guy Tavenner, a gambler. Tavenner's wife Susan reminds Rosser of his former sweetheart Carol Grannan, who was killed by a bullet meant for him.

### CHAPTER V

It was the small hours of the morning before Rosser fell into a restless sleep. He slept late in the morning and it was after eight when he went downstairs and had breakfast in the dining room.

Finished, he strolled out to the lobby and saw Susan Tavenner at the desk. He was about to walk toward the street door when he heard her voice exclaim plainly:

"My husband will take care of it," she was saying. "He'll give you the money as soon as he returns."

"I am sorry, madam," the hotel manager said firmly. "I must have the money this morning. Two hundred dollars—and the amount of your bill, also."

"I haven't got it," Mr. Wengenheim, Susan Tavenner said. "My husband was short of cash and—"

"Mrs. Tavenner," the hotel manager said bluntly. "I am getting just a little tired of this fiction. Your husband gave me a bogus check for \$200, and he's skipped. That's the truth of it, isn't it?"

"No, no!" cried Susan Tavenner desperately. "That—that's not so. My husband will return."

"No one ever returns from Montana, madam," the hotel manager said firmly. "It's the jumping-off place to nowhere."

She thrust the letter at the hotel manager, who hesitated before taking it. He unfolded a sheet, glanced at it and shook his head.

"All this is, is a letter from someone named Condon, saying he will meet your husband at a place called Great Plains."

"That's where they're opening a business. My husband and Mr. Billy Condon."

Rosser listened, heard the name and a coldness seeped through his veins. He was only vaguely aware of the next words she spoke.

"What was it James Fenimore Poe had said to Rosser? Great Plains in this year of 1886 would be the greatest of all the Western

boom towns. Riley Condon would be there.

Rosser entered the pine paneled office of James Fenimore Poe.

"If it isn't late," he said, "I'd like to take that job in Great Plains."

Poe regarded Rosser thoughtfully for a moment. Then he nodded slowly. "I don't think I want to know the reason you changed your mind. The job is yours."

He hesitated, then reached to a pile of papers at the side of his desk. He rifled through them and brought out a yellow sheet. "I received a telegram this morning from Great Plains. It seems that a group of public-spirited citizens decided to organize the town and county and have held an election. Would you like to know the results of that election?"

"No," said Rosser bluntly. "Every town I've ever been in has held elections. Sometimes the results have been good."

Poe glanced at the telegram. "Ever hear of a man named Wes Parker?"

"Don't believe I have."

"He's the new county sheriff. The man who owns a hotel is the Mayor of Great Plains."

"Joshua Moody. A lawyer named Murphy has been elected Judge. There are four city councilmen."

Poe paused for a moment. "Kenneth Rudi, Harold Price, Fred Wagner and—Riley Condon."

"And had a saloon in Wichita right or nine years ago," Rosser said. "Price was a short-tempered man in Dodge City. I don't know Fred Wagner."

"It says here that he owns a saloon."

"I'm not surprised."

"Would the name of the Marshal of Great Plains surprise you, John Housinger?"

"I figures. There's some to make their last bit clean up."

"You still want the job?"

"Mr. Poe, Rosser said evenly. "We're both betting around the bush. You know I'm taking the job because I've learned that Riley Condon is in Great Plains."

"I'll drummed the fingers on my desk. "The four councilmen are saloonkeepers and gamblers. The town marshal is a notorious gun-fighter. I think I need you in Great Plains even more than I realized. When can you leave for Montana?"

"Tomorrow."

It was long after dark when the stagecoach finally rolled into Great Plains. Susan was barely

able to walk into the hotel. Inside, she dropped into a chair and did not move until the hotel proprietor came to her.

"I—I am Mrs. Guy Tavenner," she said, summoning her last resources to make a brave front.

The hotel man could not restrain a soft whistle. "You know Mr. Tavenner?" Susan asked eagerly.

The hotel man nodded without enthusiasm. "Checked in last night. He's at the Pleasure Palace."

"Where is it—this Pleasure Palace?"

"Down the street. But—you weren't thinking of going there?"

"Why not?"

"Moody, the hotel man, frowned. "You're aware that it's a saloon and—and gambling hall?"

"Of course. My husband is a partner."

"I thought he was one of the dealers."

## Layne Withdraws Completely

LITTLE ROCK (AP)—Donald Layne of Little Rock withdrew from active campaigning as a Republican candidate for governor yesterday, citing a variety of reasons.

Among the reasons Layne listed: "The great interference in my personal life, the lack of support from other Republicans and the firm belief that my platform is much to far advanced for the people of this state, my home."

Layne, a 32-year-old engineer, did not amplify his remarks about interference with his personal life or lack of support from the GOP.

He said his platform, which includes support of voluntary desegregation in Arkansas, drew a poor reception to south Arkansas this week.

Layne rushed back to George W. Robinson of Greenwood, the only other Republican candidate for governor.

## Quiz Show Director Fired From Job

NEW YORK (AP) — The director of the televised quiz show "Twenty-one" was out of a job today. He was fired after refusing to tell the House Un-American Activities Committee whether he has a past Communist record.

The director, Charles S. Dubin, was questioned Wednesday as the committee opened public hearings into communism in show business. Nine persons in the industry were questioned.

Another questioned was Arthur Lieber, American guest conductor of the Mouskoy Russian ballet, now touring this country and playing to packed houses. Lieber refused to say if he is presently a Communist party member.

Dubin told the committee he is not now a member of the party, but said he would invoke the Fifth Amendment if asked about past associations.

The National Broadcasting Co. immediately barred Dubin from its facilities. The producers of the quiz show, Jack Barry and Dan Enright, followed suit by firing Dubin.

NBC said "persons who refuse to testify as to their present or past affiliation with the Communist party render themselves unacceptable as . . . employees on NBC programs."

## 'Friendship' Should Be Determined

By JAMES MARLOW  
Associated Press News Analyst

WASHINGTON (AP)—Just how much friendship was involved—in Sherman Adams' free-loading at the expense of Boston millionaire Bernard Goldfine—should come to light in Goldfine's income tax returns.

Adams, President Eisenhower's right-hand man, calls Goldfine, a textile manufacturer, an old-time family friend. But a key question is this:

When Goldfine paid the more than \$2,000 in hotel bills which Adams charged to him, did he do it as a friend or did he deduct the money from his income tax as a business expense?

Adams—in the picture emerging from a House subcommittee's inquiry into the Adams-Goldfine relationship—does not appear as a fast man with a buck.

A subcommittee investigator reported that Adams, while staying in Goldfine's hotel suite at Goldfine's expense, not only charged to Goldfine one dollar for a bowl of ice but a 25-cent tip for the bellboy who brought it.

Adams told the subcommittee this week that Goldfine had invited him to use without cost hotel suites in Boston, New York and Plymouth, Mass. and Adams did.

Friend or not, Goldfine in turn used Adams—who cooperated in being used—to obtain from the Federal Trade Commission information which the subcommittee counsel says should not, by FTC rule and by federal law, be revealed.

When Goldfine got in trouble with the FTC—for allegedly mislabeling a fabric—instead of going to the agency to find out what it was all about he went to Adams and asked him.

Adams asked the FTC for information, got it, and turned it over to Goldfine. Subcommittee counsel Robert J. Ashman says FTC rules and law forbid giving out this information. It contained the name of the company complaining against Goldfine.

Goldfine is supposed to be called before the subcommittee. Ashman then was in a position to ask him whether he deducted Adams' hotel bills as a business expense.

The Internal Revenue Service will not reveal this kind of information to newsmen. Sometimes this information is given to a congressional committee, but only with presidential consent.

At his news conference Wednesday, Eisenhower was asked if he would order the Internal Revenue Service to release the Goldfine income tax returns. He avoided a direct answer.

Adams denied he knew he was violating either an FTC rule or federal law in giving the information to Goldfine. He pleaded inexperience, although he's the one Eisenhower depends on most in running the government.

Eisenhower let it be known Wednesday he would not fire Adams. He said his No. 1 assistant might be imprudent but he was honest and besides, Eisenhower said, "I need him."

It's still questionable how long Adams will stay. Republicans running for reelection in Congress this year will have the Adams-Goldfine case wrapped around their necks by the Democrats. They're not happy at the prospect.

Goldfine appears to be a man who not only does a lot of talking but brags about his relationship with public officials and the fact he gives them. It remains to be seen what the subcommittee gets out of him.

## Negro Graduate to Attend Michigan S.

EAST LANSING, Mich. (AP) — Ernest Green, first Negro graduate of Central High School in Little Rock, Ark., today was formally accepted as a scholarship student at Michigan State University.

MSU Vice President Thomas H. Hamilton said Green's scholarship announced last month had been released because of a misunderstanding over his grade average.

Green, son of a widowed Little Rock school teacher, also will receive financial help from the national Scholarship Service Aid Fund for Negro Students.

Hamilton said he estimated it would amount to between \$300 and \$500 a year.

Green, who is aiming toward a career in law or science, is working in New York City this summer to earn money to help finance his education.

## U.S.-Soviet Relations Reappraised

By JOHN M. HIGHTOWER  
WASHINGTON (AP) — President Eisenhower and Secretary of State Dulles have started a new appraisal of U. S.-Soviet relations.

They seek to determine whether current negotiations over such issues as a summit conference offer any real hope of producing agreements.

Both men appear convinced that Soviet Premier Nikita Khrushchev is following much tougher policies, but they are not sure why.

State Department experts looking for an answer admittedly do not have all the necessary facts. For example, they are not sure why Soviet ambassadors from the United States and other key Western countries were called back to Moscow this week for urgent consultation.

One speculation is that Khrushchev may be planning some new maneuver in foreign affairs with respect to a summit conference or possibly Soviet trade with the Western industrial countries. Eisenhower told a news conference Wednesday he was unable to say whether it would be worth while to continue his long and voluminous exchange of letters with Khrushchev in the light of such incidents as the execution of former Premier Imre Nagy of Hungary.

He said that the execution of Nagy, who was premier at the time of the Hungarian revolt against Soviet communism in late 1956, showed that the Soviets are following "policies of terror and intimidation . . . to bring about complete subservience to their will."

He added that this incident should alert the entire free world to "the lack of confidence that we are compelled to feel in the words and actions of these Communist imperialists."

His hopes for coming to workable agreements with the Soviets, he added, have suffered "a very great setback."

The Soviet high command has taken in recent weeks a series of actions bound to cost Russia good will and prestige, but it appears not to be bothered by this cost.

About two months ago Soviet officials showed reluctance to enter into diplomatic negotiations over arrangements for a summit conference. This created a widespread impression Khrushchev was backing away from such a meeting. Later Soviet propagandists and he himself sought to wipe out this impression.

But Khrushchev's action in making public this week various secret proposals put forth in the diplomatic negotiations was interpreted here and abroad as virtually wrecking the talks.

Meanwhile the Soviets, as the result of a Communist ideological row with President Tito of Yugoslavia, cut off promised credits totaling about 285 million dollars. This laid them open to Western charges that their aid was given or withheld for political, not economic, purposes.

Such incidents and the execution of Nagy and up to what U. S. officials consider to be a very tough Soviet line.

## New Computer Can Handle a Plane

WASHINGTON (AP)—General Electric Co. has developed a new kind of airborne computer which it said would make a modern fighter-bomber nearly automatic.

As described at a meeting of military electronics specialists Tuesday, the "digital computer can."

1. Help the pilot navigate from his base to the target.

2. Choose the particular weapon to be employed, and prepare it for firing.

3. Control the approach maneuvers of the plane as it nears the target.

4. Release a bomb or missile at the proper moment with regard to altitude, wind velocity, distance from the target and other conditions.

5. Select the best altitude and speed from the standpoint of fuel economy for the flight home.

6. Direct the aircraft back to its base.

The computer was developed by GE's Light Military Electronic Equipment Department at Ulica, N. Y., and was described by M. R. Johnson, manager of the department's armament and control section.

## Governor Danies Getting Material

LITTLE ROCK (AP)—Gov. Orval Faubus today said he had no recollection of receiving material from a hit man's office of nothing might be made during the 1958 National Governors' Conference.

New Hampshire Gov. John D. Dingell said last night he presented the cuts of cloth to all governors from a mill of Bernard Goldfine, whose relations with Presidential Assistant Sherman Adams are the subject of a congressional inquiry. Today Adams made a similar statement.

Faubus said the fact that he didn't remember getting the clothing did not mean such a gift hadn't been made. He pointed out that numerous gifts are presented at every Governors' Conference.

He said he was certain, however, that if he received the material, it was not made into a suit for him.

To look well in summer, the mature woman needs the same careful fitting in foundations that she needs for spring fashions. But her summer foundations can be light and airy, made of sheer nylon or cool cotton mesh. We show here (left) a long line bra with round cups and light boned girdle planned for all over control. Both are in mesh. And both supply the right line for blouse or modified trapeze fashions. The silk print blouse (center) is cool and summery with wide, scooped-out neckline and cap sleeves. The two-piece dress (right) is in dacron-nylon-pima cotton combination with a modified trapeze styling.

## Boston Girl Is Getting Sexy Roles

By BOB THOMAS  
HOLLYWOOD (AP)—For a girl who is fairly proper, Bostonian, Lee Remick certainly has gotten herself into a lot of sexy roles. "First came 'A Face in the Crowd,' in which she played a hip-swinging bawd twirler with an eye for Andy Griffith and various other mates. Then in 'Long, Hot Summer,' she was a sultry Southern belle whose prime interest was sex. Her third picture is 'Those Thousand Hills,' a Western. And does she get to play a valiant pioneer gal? Nope. She's a lady of the evening. 'I can't understand how I got typed,' she complained mildly.

## Many Have Thought the Great American Frozen Female Face Could Be Greatly Improved

By HAL BOYLE  
NEW YORK (AP)—Many life-long scholars of the great American frozen female face have thought it could be improved. Their varying approach to the problem, probably measures their age and optimism. Being older and perhaps therefore more cynical, I leaned to the theory that it was better to get along with life than fight it. And I came to accept the great American frozen female face as inevitable. "I came to feel it was natural to shake womanhood by her lifted nose rather than her withheld hand. American girls! Then I met Sophia Loren. A living bonfire. A lovely surprise. A girl with an unfrozen face, a full stemmed girl. As she walked away with a rearward muscular schizophrenia, some muscles went clockwise, some counter-clockwise. A male human heart could only extend sympathy to her in her handicap. Her walk, though, had a mixture of 'cruelness and kindness—half-panther, half-gazelle. It was all the art of Italy, ambulant. She had the presence and security of a sunrise. Her expression from moment to moment was a race of rainbows. 'I am still young,' she said. 'Life is always exciting to me. I am never bored.'"

**BEACH CHEMISE**—Wearing the latest in beach styles is TV actress Marie Wallace in New York. Under the semi-chemise coat is a matching swimsuit.

"I've gotta stop." I've got news for her. This sort of thing can't be stopped. Once a newcomer gets typed, especially in sexy roles, it sticks. The strange part of it is that Lee seems more like the Debbie Reynolds type in person than the Marilyn Monroe variety. She's a refreshing, wholesome girl who seeks no undue notice of her obvious physical merits. Matter of fact, the girl won't even pose for cheesecake. "They asked me to at Warner's once," she recalled. "I told them absolutely no. What I want out of acting has nothing whatsoever to do with cheesecake."

See what I mean about this girl? She admits to being "fairly proper" and her Bostonian background extended only from birth until she was 6. Then she moved to New York. She started acting at an early age, appearing in summer theaters and road companies. She dipped into television in those golden days when the New York dramatic shows were producing exciting new talent. Ella Kazan first saw her as a sexy doll. He provided her film debut in "A Face in the Crowd." He predicted top stardom and signed her for a number of pictures which she expects never will be made. Twentieth Century-Fox also noted her potentialities and gave her a one-picture-a-year contract. You can bet the studio will exercise its options.

**Extension of Tax Setup Is Certain**  
By JOE HALL  
WASHINGTON (AP)—President Eisenhower's request for extension of present corporation and excise taxes comes up in the Senate today with approval appearing certain. However, a lively floor fight was in prospect over a proposed amendment to wipe out the 3 per cent freight and 10 per cent passenger taxes. On this the issue looked very close. Other pending amendments to repeal taxes on automobiles and auto parts appeared to have only a slim chance. The House passed the bill June 5 without any tax-cutting amendments. Unless Congress acts to extend them, the wartime rates will drop automatically June 30, cutting Treasury revenues an estimated \$2,600,000,000 a year. Sen. Harry F. Byrd (D-Va.), floor manager for the measure, was ready to lead a vigorous fight against any amendments. He contends the government faces an 11-billion-dollar deficit next year and cannot afford to lose revenue. He had the support of both Democratic and Republican Senate leaders. However, a bipartisan bloc of senators was equally prepared to battle for repeal of the freight and transportation taxes put on in World War II. These levies yield about 985 million dollars a year. Byrd told a reporter the railroads would get only 48 per cent of the relief from repeal of the freight levy. The other 52 per cent would go to truckers and other carriers, he said. As passed by the House, the bill would prevent these reductions: 52 to 47 per cent on corporation income, 10 to 7 per cent on autos, 8 to 5 per cent on auto parts and accessories; \$4 to \$3.50 per thousand on cigarettes; \$10.50 as a representative of State Can. in 1917 and 1945. Funeral services were scheduled today at Marshall.

**UN Secretary Arrives in Lebanon**  
By TOM MASTERSON  
BEIRUT, Lebanon (AP)—U.N. Secretary General Dag Hammarskjold arrived in Beirut today, bringing a glimmer of hope that he might end Lebanon's rebellion. The international diplomat flew in a dawn from London and New York. His reputation in the Middle East for mediating feckless quarrels gave Lebanese some hope he might succeed where others failed. The crisis-ridden country has endured 41 days of fighting, bombing, shootings and strikes in an effort by opposition political factions to overthrow pro-Western President Camille Chamoun. The people are thoroughly fed up and are looking for any solution that will end the trouble. Rebel leaders have promised a truce while Hammarskjold is here. A furious battle raged in Beirut Wednesday, but government forces finally beat back the rebels and restored an uneasy quiet. After a brief rest at his hotel, Hammarskjold began talks with Norwegian Maj. Gen. Odd Bull, former President Cajo Plaza Larvae, Ecuador and former Indian Ambassador to the U.N. Rameswar Caya. The three leaders of the U.N. observation team ordered by the Security Council to watch out for any aid to the rebels from the neighboring United Arab Republic. As usual, Hammarskjold refused to comment to newsmen on his plans. There was speculation he might, after conferring with the Lebanese, go on to Cairo to talk with U.A.R. President Nasser. Some 30 unarmed observers already are here to check Lebanon's 150-mile border with the Syrian province of the U.A.R. The Lebanese government feels hampered that observation is not enough.

NORTH LITTLE ROCK (AP)—North Little Rock officials apparently were caught in the middle today. ## Calls Police From Scene of Burglary

JONESBORO, Ark. (AP)—For reasons known only to him, a youthful burglar boldly called police last night from inside the store he was pilfering. The 17-year-old told police the store had been robbed and the owner shot. Police hurriedly layed the information to the sheriff, Lonnie Cooper, who happened to be cruising with a deputy in the area near the rural store north of Jonesboro. Sheriff Cooper sped to the scene in time to catch the youth leaving the rear of the store loaded with cigars, cigarettes, cookies, lighters and other sundries. The story about the owner being shot proved false and the youth gave no reason for the impulsive telephone call that got him caught.

## Lopez Trades Seem to Be Paying Off

By THE ASSOCIATED PRESS  
Okay, so Al Lopez has made his point. These winter trades that bedded power for pitching have helped give his Chicago White Sox four shutouts in five games. But they're still seventh in the American League race, 11 1/2 games behind.

Jim Wilson, Dick Doherty and Billy Pierce, three old hands, pitched consecutive shutouts, and after taking a five-home run pounding from Boston Wednesday, the White Sox beat the Red Sox 4-0 Thursday on the two-hit pitching of Early Wynn.

The veteran right hander, acquired from Cleveland, now has a pair of two-hitters for the season, and owns half of the six shutouts bagged by the Chicago staff. Thursday's showpiece, in which he faced but 30 men and didn't give up a hit after the sixth, was his 36th major league shut out and his 10th two-hitter in the big time.

Yet the White Sox didn't gain an inch on the first place New York Yankees, who rapped five homers and beat Cleveland 9-3 for a three-game sweep that left them nine games ahead of second place Boston. Washington junked its slump at five games, and ended Detroit's winning string at five, with a 4-3 decision. Baltimore jumped into fifth with a 4-2 victory at Kansas City.

In the National League, the Chicago Cubs bettered four home runs and handed Warren Spahn his third consecutive defeat 5-4 at Milwaukee. That held the Braves' lead at two games over second place San Francisco, beaten 6-5 at Pittsburgh. Philadelphia beat Los Angeles 9-3. Cincinnati and St. Louis were tied for rain.

Wynn, now 7-5, walked but two and struck out eight. He leads all major leaguers with 1,705 strikeouts in his 18-year career. He gave up a second-inning single by Frank Malone and a sixth inning single by Roger Peckinpaugh. (4-2) Wynn fanned Ted Williams for the last out.

Early, 30, scored the only run he needed himself, on Billy Cowdman's third-inning sacrifice fly. Andy Carey hit two of the Yankees' homers, giving him eight. Both were off reliever Bob Lemon. Home runs by Enos Slaughter and Elston Howard gave New York a 3-0 lead in the second against rookie Gary Bell, who lost his first in three decisions. Hank Bauer got the other Yankee homer, while Rocky Colavito hit his 11th, with one on, in the ninth for the Indians. Johnny Kucks (6-3) went all the way with an eight-hitter.

The Orioles, in last place before sweeping three at Kansas City, took it on Gene Woodling's two-run homer in the eighth off Ned Garver, who has lost three in a row. Ken Lehman was in it in relief for the Birds, now just a half-game out of third and two shy of second.

Lefty Albie Pearson doubled home a tie-breaking run in a two-run seventh for the Senators, then tripled home the winner in the ninth. Dick Hyde saved Russ Kemmerer's fourth victory, putting down the Tigers after they scored two unearned runs in the ninth. Paul Doyne (4-7) dropped his third straight.

## Early Wynn May Get 5th 20 Game Year

CHICAGO (AP) — The Chicago White Sox Early Wynn, at 38 shooting for his fifth 20-game season, figured today if he slows down just a little at a time, he may pitch three or four more big league years.

The way Wynn hand-picked the Boston Red Sox Thursday with a two-hit 4-0 shutout — his third of the season and 36th of his 18-season career — old father time may begin his seythe on evergreen Wynn.

Wynn now has a 7-5 record this season and seems to be getting better with every outing. Last season, he pitched for two clubs, the Cleveland Indians and the White Sox. He pitched for the Sox after he finished laming the Red Sox' win in good shape, but the years count against you.

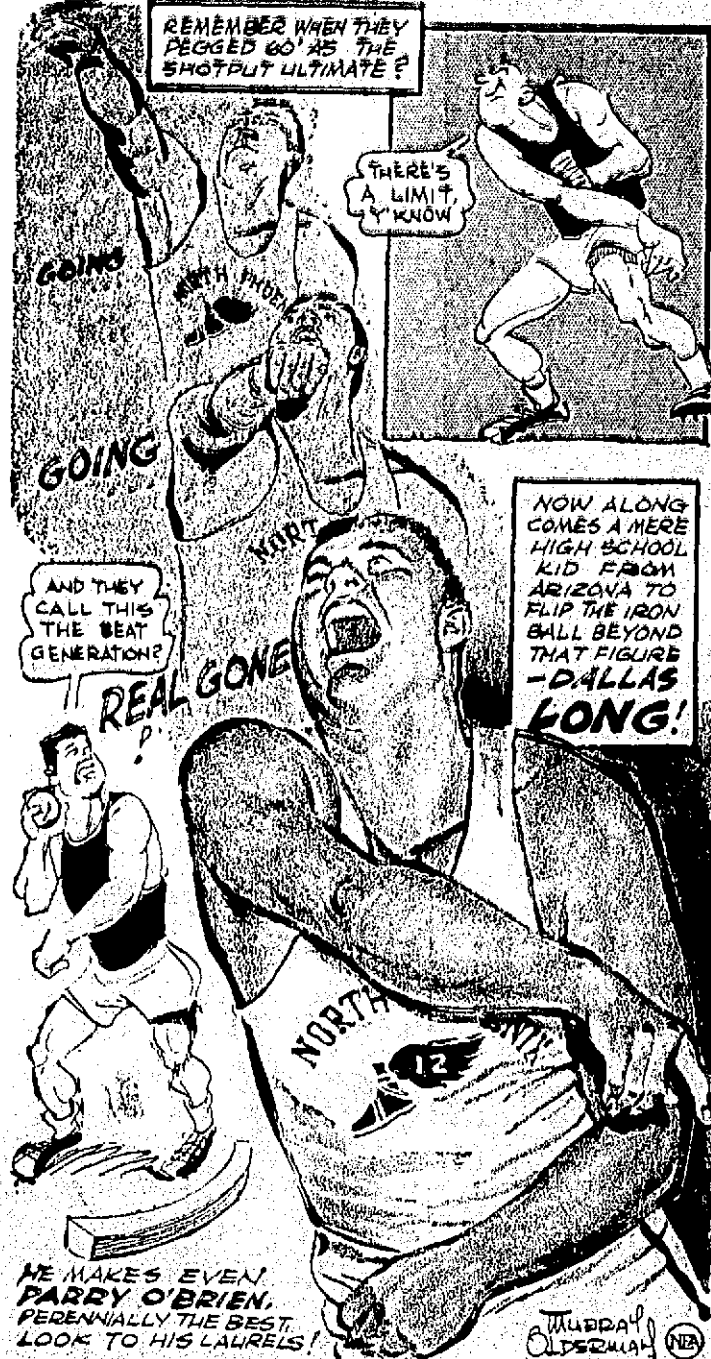

He'd like to win 20, naturally, but it seems to be one season 1 had 11 wins by the All-Star game break and didn't hit 20.

As for how much longer I can be an active pitcher, that depends on how fast I slow down. If I slow down just a little at a time, maybe I'll be good for three or four more years.

## Slump Seems to Have Hit All the Oldtimers

By THE ASSOCIATED PRESS

First Stan Musial. Then Willie Mays. Now it's Warren Spahn, Milwaukee's stoutest southpaw, who has been hit by the slump epidemic sweeping the National League.

Spahn, one of the all-time great left-handers, was off on a streak in pursuit of his ninth season of 20 or more victories. He was the first to win eight. May 21, he hasn't won since.

He lost his third in a row Thursday night, again beaten by a go-ahead homer, as the Chicago Cubs hammered four home runs for a 5-4 decision, that held the Braves' first-place edge to two games. Rookie Tony Taylor's first major league homer was the clincher in the ninth.

It was the 11th homer given up by Spahn in the three-game slump, nine of them by the Cubs — who started his skid with five home runs in a 9-6 decision June 10.

Second place San Francisco — with Mays sent to a New York hospital for a check-up — was beaten 9-5 at Pittsburgh. Philadelphia rapped Los Angeles 9-3. Cincinnati and St. Louis were tied for rain.

In the American League, the New York Yankees hit five home runs for a 9-3 victory at Cleveland. Early Wynn tossed a two-hitter that beat Boston 4-0 for the Chicago White Sox. Washington ended Detroit's winning streak at five games, 4-3 and Baltimore defeated Kansas City 4-2.

Spahn now has given up 18 home runs this season, 14 of them in the games he lost. He allowed only 23 homers all last year.

Wynn, who now has hit 15, counted a pair off Spahn last night and Al Dink off the other. But it was Taylor who was in Spahn's hair. He stole home for a 1-0 lead in the first inning, then cracked a 4-4 tie with his homer that chased Spahn with one out in the ninth.

Spahn, whose single was the only hit off Cub starter John Beatty for three innings, made his 20th career home run first of the year, good for two runs at the Braves' 4-2 lead in the fourth. Right-hander Glen Hobbie, third Cub pitcher, squared his record at 5-5, blanking the Braves on three hits in his four innings.

Right-hander Ray Semproch won his eighth for the Phils and had a no-hitter for 8 1/3 innings. He had a three-hit shutout until the ninth, when Joe Pignatano, who hit his first major league homer Wednesday, singled No. 2 and Duke Snider belted his fifth. Stan Lopata hit a three-run homer in the first and the Phils then scored five in the third with six consecutive hits off starter Don Dyess.

Southern Don Gross fanned pitcher Jim Fagan to save Ronnie Kline's seventh victory for the Pirates after the Giants had scored three in the ninth, two on rookie Bob Schmidt's ninth homer. The Pirates beat Al Washington 5-3 with four in the seventh, triggered by Bob Skinner's two-run eighth homer.

First step in the construction of the Old Statehouse at Little Rock in 1835 was to set up a brick mill and by 1860 there were 25 mills in the state making brick or tile. Arkansas had one public library in 1835.

## Bahama Slams Out Win Over Gavilan

MIAMI BEACH, Fla. (AP) —

Young Yama Bahama considered a campaign in the welterweight boxing ranks today after belting out a solid victory over former welter king Kid Gavilan.

Bahama, 25, a former fishing guide from Miami, took a quick early lead over Gavilan in the televised fight Wednesday night in the Miami Beach Auditorium and the Cuban Hawk, a slow-down batter at 32, had nothing with which to rally.

Judge Eddie Thel gave Bahama the most one-sided score, 100-92. Referee Jimmy Peepless scored 110-84 and Judge Stu Winston 99-93. Bahama was a 99-93 winner on The Associated Press card.

Bahama, who has campaigned fairly successfully as a middleweight since after the fight, might have a go at the welters in the event of his easy night against Gavilan. It'll be no trouble to make the weight, he added.

The win over Gavilan was the 49th for Bahama against eight losses and one draw. At 151 pounds, he was a half-pound heavier than the Cuban Kid. Gavilan's career record now is 106-80-6.

## Post of Cardinal Stritch Is Filled

Cardinal Stritch was appointed to the Vatican post on March 1. He died May 27 after being stricken ill on his way to Rome.

## Transfer Sought in King Case

JACKSON, Miss. (AP) — Attor-

neys for Clement King said they would wait until later today to decide whether to transfer efforts to free him to another court or to start new proceedings.

James Brown, a Vicksburg Negro lawyer, said he and C. E. King of Albany, Ga., brother of the controversial Negro ex-professor, would advise Circuit Judge J. M. McGowan of their decision some time after noon.

# No Evidence Vaccine Damages the Brain

CHICAGO (AP)—Two researchers said they failed to find any evidence that Salk polio vaccine might damage the brain or spinal nervous system. They added they were astonished that in their study of 852 cases they were unable to find a single person having such a reaction.

"We had not expected to obtain such completely negative results with a biologically potent material," said Mrs. Erna L. Gibbs and Dr. Frederic A. Gibbs, both of Chicago.

Results of the study were reported Thursday in the *Journal of the American Medical Assn.*

The study was undertaken because of reports circulating in the Chicago area that some children developed convulsions and other signs of central nervous system disorder after the mass Salk vaccine injections in 1955.

The study was carried out at Chicago, Rockford, Ill., and Richmond, Va.

America's first rear-engine mounted jet, it is shown above during a test flight in California. Capable of carrying 10 or more passengers, the "economy-sized" jet recently set an unofficial California to Georgia flight record of three hours, 29 minutes. This was an average of 557 miles per hour. A number of business firms have reserved "priority delivery positions" to buy the JetStar when it becomes available following signing of the order with the military.

**SOMETHING HE'LL NEVER FORGET**—John Meyer, 11, retraces the dream trip he made with his dad, Maynard Meyer, in this 1931 Lincoln sedan, at the Meyer home in Pewaukee, Wis. Father and son found the car for sale in Los Angeles, and dad bought the machine so that John could enjoy an old-time, leisurely auto journey. They covered the 1,225-mile route to Pewaukee in 5½ days at a top speed of 45 miles per hour.

**FOREIGN INVASION**—These little, nightmare-type autos are "foreign" imports, all right. They're right out of this world. Compressed by a photographer's imagination, they're out of Detroit by way of a curved, plate-glass window at busy East Ninth and Euclid, in Cleveland, Ohio.

## Prison Seized in Beirut by Insurgents

BEIRUT, Lebanon (AP)—Insurgents captured a woman's prison in Beirut today, and started shooting at nearby houses from the prison walls.

Fighting broke out in the area Tuesday night when insurgents attacked the prison.

The insurgents and Moslems opposed to President Camille Chamoun's regime in this anti-Chamoun, half-Moslem nation.

The prison is on a hill overlooking the Christian quarters. The Moslems were shooting down into the Christian section.

The army earlier this morning removed the women from the prison.

The outbreaks came as three leaders of a U.N. observation team held their first meeting. U.N. Secretary General Dag Hammarskjöld also is living here.

The pro-Western government was expected to ask Hammarskjöld to guard Lebanon's borders against United Arab Republic interference in the 5½-week rebellion against Chamoun.

The observation team was established by a U.N. Security Council resolution last week to investigate Lebanese charges of U.A.R. intervention. But Chamoun's government accused Tuesday that mere observation is not enough.

## Committee Okays Car Price Tags

WASHINGTON (AP)—The House Commerce Committee today approved legislation to require automobile manufacturers to put detailed price tags on their cars. Already passed by the Senate, the bill now goes to the House.

The observation team was established by a U.N. Security Council resolution last week to investigate Lebanese charges of U.A.R. intervention. But Chamoun's government accused Tuesday that mere observation is not enough.

## "My Business is Groceries..."

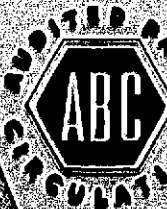

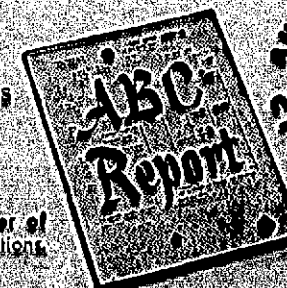

"It is my business to give the people of this community the very best in food values, prompt service, courteous treatment. The kind of merchandise that goes on my shelves has a lot to do with my success, so I buy good products that are made and packaged in accordance with the well known standards of quality, weight and measure. Buying and selling on the basis of these standards protects my customers and my business."

"I know from experience that good newspaper advertising is the best way to tell people the news of my store. In my opinion, newspaper advertising is not only the most effective way for me to advertise, it is also the safest way. When I spend money in newspaper advertising I make my investment on the basis of verified circulation figures and values that are as well known and important in advertising as the standards of weight and quality that I use in my own business."

The information the grocer refers to is found in reports issued by the Audit Bureau of Circulations. This is a cooperative, nonprofit association of 3,575 publishers, advertisers and advertising agencies. The work of the Bureau is to furnish advertisers with audited information about the circulation of its publisher members.

At regular intervals the A.B.C., of which this newspaper is a member, sends

an experienced circulation auditor to make a thorough inspection and audit of our circulation records. The FACTS established by this audit are published in an A.B.C. report which tells you: How much circulation we have; where it goes; how obtained; how much people pay for our paper; and many other FACTS that you need in order to KNOW what you get for your advertising money.

This newspaper is a member of the Audit Bureau of Circulations

Advertisers are invited to ask for a copy of our latest A.B.C. report
